EDUCATION

Diploma in Computer Programming

May 2023 – December 2024

Georgian college, Toronto, ON

Cumulative GPA: 87.41/100

- **Relevant Course Work:** Software Development, Client and Server-Side Development, Object Oriented Programming, Database Management.

Advanced Diploma in Computer Programming

June 2019 – July 2022

Gujarat Technological University, India

CGPA: 9/10

- **Relevant Course Work:** Mobile computing and Application Development, Computer Networks, Data Structures, Client and Server-Side Development, Object Oriented Programming, Database Management.

WORK EXPERIENCE

Cashier | Aramark - University of Toronto

August 2023, Present

- Managed financial transactions and maintained accurate records using point-of-sale systems at the University of Toronto, demonstrating proficiency in handling sensitive data and ensuring compliance with financial protocols.
- Implemented customer service protocols to address and resolve issues promptly, showcasing strong interpersonal skills and the ability to communicate effectively in a user-centric environment.
- Utilized problem-solving skills to troubleshoot and resolve issues related to cash transactions, showcasing a proactive approach to identifying and mitigating potential challenges.

Full Stack Developer Intern | Panchalclub

September 2022 – February 2023

- Collaborated with a dynamic team to create an engaging login page using HTML, CSS, and JavaScript, contributing to the overall user experience.
- Played an integral role in developing the backend system by utilizing database and PHP, working alongside experienced team members to enhance system functionality.
- Actively participated in the design and implementation of client profile pages, learning and applying new skills while contributing to the project's success.
- Engaged in continuous learning, acquiring new knowledge in web development and gradually integrating acquired skills into the team's workflow.
- Worked collaboratively with cross-functional teams to seamlessly integrate front-end and back-end components, fostering a cooperative and productive work environment.

ACADEMIC PROJECTS

Portfolio Website - [Project Link](#)

- Designed and developed a cutting-edge, responsive portfolio website from scratch, showcasing my proficiency in HTML, CSS, and JavaScript.
- Integrated an interactive contact form for seamless communication, ensuring a personalized user experience.
- Innovatively designed and implemented a backend system for efficient capture and delivery of contact form inquiries to my email.
- Demonstrated technological prowess by staying ahead of industry trends in web development, creating a visually appealing and functional online presence.

Student Record Management System - [Project Link](#)

- Developed a comprehensive Student Record Management System using HTML, CSS, and PHP, showcasing proficiency in full-stack web development.
- Implemented a secure registration and login system, allowing only authorized administrators to access and manage student records.
- Incorporated CRUD (Create, Read, Update, Delete) functionality, enabling administrators to efficiently manage student information, including adding, updating, and deleting records.
- Implemented a dynamic photo management feature, allowing administrators to change and update student photos seamlessly within the system.

TECHNICAL SKILLS

- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap.
- **Back End Technologies:** PHP
- **Programming Languages:** C, C++, Java
- **Database Management:** SQL, MySQL Workbench
- **Project Management Tools:** Git, GitHub.
